

**Application to Withdraw from MEd Candidature**

Candidates who do not wish to continue with their research program are required to complete this form notifying the university of their intention to withdraw.

A candidate who withdraws from candidature shall not be re-admitted to candidature within four years from the deemed date of withdrawal.

Where a candidate has made good progress to date and where there are special circumstances relating to a candidate's request for withdrawal, the Research Degrees Committee may approve withdrawal in good standing. In these circumstances, a candidate may be re-admitted without having to wait for the mandatory four years to elapse. When re-admission to candidature is sought at a later date, credit may be sought for the previous research undertaken.
